# CATALOG No. 1

- ◆ In presenting to the Trade our first catalogue, allow us to give some of this organization's history.
- ◆ Established in 1866, it has been the privilege of the company to serve the public for some seventy-odd years in the same location, and officered by the second and third generation.
- ◆ The experience compiled in these many years is at hand for customer's use and should add much to their confidence in our business relations.
- ◆ All of the items catalogued are in stock. Special problems are very welcome and are handled with thoroughness and dispatch.

## FLOOR BRUSHES

CUT NO.	NAME, DESCRIPTION, SIZES.
1	<u>FULL VALUE.</u> A popular priced hair floor brush for home or small office use. 2 1/2" Trim, staple set, colored blocks. 12" 14"
2	<u>TAMPICO.</u> Grey, 3" Trim, staple set, natural blocks, medium stiff low priced brush for any general sweeping. 12" 14" 16" 18" 24" 30" 36" 42"
3	<u>SPECIAL.</u> Black, 3" Trim, staple set, natural finished blocks. Center, black tampico, outside, black horsehair, medium stiff center, soft outside. 12" 14" 16" 18" 24" 30" 36" 42"
3	<u>50-50.</u> Same as above but brush is mixture of fifty percent pure black horsehair and 50% black tampico, 3" Trim, a splendid medium priced soft texture brush. 12" 14" 16" 18" 24" 30" 36" 42"
3	<u>HORSEHAIR.</u> Same as above except brush is pure black horsehair. 3" Trim. The best all around sweeping broom. Soft, long wearing. 12" 14" 16" 18" 24" 30" 36" 42" 48"
4	<u>GARAGE.</u> Stiff Palmyra stock, 4" Trim. Heavy blocks, 1 1/8" handles. A heavy duty broom for garage, dairies, brewery work, bottling plants. 14" 16" 18" 24" 30" 36"
5	<u>INDUSTRIAL.</u> Palmetto center, stiff, Horsehair case. This broom is for heavy and fine sweeping, the center to take heavy dirt, the outside will catch the fine dust. 14" 16" 18" 24" 30" 36"
6	<u>BRISTLE BROOMS.</u> We custom make any type of bristle or bristle mixtures. Due to the variety we quote only on inquiry. Send specifications or make inquiry for suggestions.
7	<u>BIG CHIEF BROOM BRACE.</u> This is a handle brace for any floor brush handle. It should be used on all brooms over 24" but can be used on any size. Saves breaking of handles.
8	<u>FLEXO SPRING ATTACHMENT.</u> This screws on the ends of handles and into the block. Gives the broom flexible motion. Saves threads on the handles.

## WALL PAINT BRUSHES

FLAT WALL, EXTENSION WALL, STEEL STUCCO AND LEATHER STUCCO BRUSHES

All our wall brushes are pure bristle, China or Russia, as specified. They are hand made tools giving them working abilities that every brush should have.

The settings are hard rubber and can be used in any paint material.

See specifications for descriptions of styles, widths and lengths of bristle.

## CIRCULAR WIRE BRUSHES

- | <u>CUT NO.</u> | <u>STYLE AND DESCRIPTION.</u>   |
|----------------|---|
| 1              | <u>KNOTTED TYPE.</u> A safe and long wearing wheel brush. Can be used on all high speed tools up to 6,000 R P M. Perfect balance each knot contains the same amount of wire. Made in diameters 4", 6", 8", 10", 12", 15". Gauges of wire from 28 to 33. Any size arbor hole.  |
| 2              | <u>BASE SECTIONS.</u> Diameters from 4" to 10". Wire gauges from 28 gauge to .005. Either straight steel or stainless steel. Any arbor hole. Sections put together make any face width wanted.  |
| 3              | <u>ADAPTOR TYPE.</u> These are solid filled wheels pressed together with heavy steel centers. Usually about 1" wide and up. Diameters 4", 6", 8", 10", 12". Gauges from 28 to 33. Any arbor can be secured by interchanging the center adaptors. Excellent brush for rubber work, heavy iron castings, gear brushing. |
| 4              | <u>ALUMINUM CUPS.</u> To make end brushes with KNOTTED TYPE brush. Knots are folded up and brush inserted inside these cups make these a refillable end brush for any flat surface work. Also used for inside tubes or shells of any size from 4" diameter up.  |
| 5              | <u>SOLID TYPE WHEELS.</u> Lead center. Diameters 4", 6", 8", 10". Approximately 1" thick. Crimped steel wire from 28 to 36 gauge. Any arbor from 1/4" to 1".  |
| 6              | <u>FINE STEEL OR BRASS WIRE PLATING SCRATCH BRUSHES.</u> Wood cores made in .005 to .003 gauges of wire. Two to six rows wide. Lead centers, either tapered arbor holes or straight.  |
| 7              | <u>ADAPTOR WHEEL HOLDERS.</u> To be used with chucks or holders. Stud 1/4" diameter.  |
| 8              | <u>CUP BRUSHES.</u> Heavy duty end brushes. 6" diameter. Any arbor hole. Usually from 24 to 28 gauge wire. For removing scale, rust on bridge or tank work. Dressing down concrete. Arbors 1/2" or 5/8".  |
| 9              | <u>ROTARY CARBON BRUSHES.</u> We have a variety of sizes from 1/2" diameter to 1 1/4". Used as end brushes for carbon removals, or getting inside hollow objects. 1/4" Studs.   |
| 10             | <u>SMALL DIAMETER WHEELS.</u> Available from 1/2" diameter to 4". Wire gauges .003 to .011. Any arbor hole from 1/4" to 9/16". They average about 5/16" thick per section. Any number can be assembled on a shaft for large brush surface.  |
| 11             | <u>END BRUSHES.</u> From 1/2" to 1" diameter. These are solid filled brushes with 26 to 30 gauge wire. 1/4" Studs.  |
| 12             | <u>GOBLET OR END BRUSHES.</u> 1 1/4" diameter. Usually filled with .003 to .005 Crimped steel wire. Made on wood cores. 1/4" Studs.   |
| 13             | <u>GOBLET BRUSHES LEAD CENTERS.</u> Made on wood cores. Available in steel or brass wire and bristle. The wire in gauges .003 to .005. Any diameter from 2 1/2" up to 4".   |

### THIS CIRCULAR

shows the more important types of brushes which we make, but of course does not list all the various patterns and sizes which we will be glad to make to meet individual needs.

### OUR BRUSHES

are made by experienced workmen from quality materials, assuring our customers of the most possible value for the money they pay us.

### IN SENDING ORDERS

or inquiries be sure to give numbers, sizes and quantities so that you may receive prompt and satisfactory attention.

### ALL PRICES ON SPECIAL BRUSHES

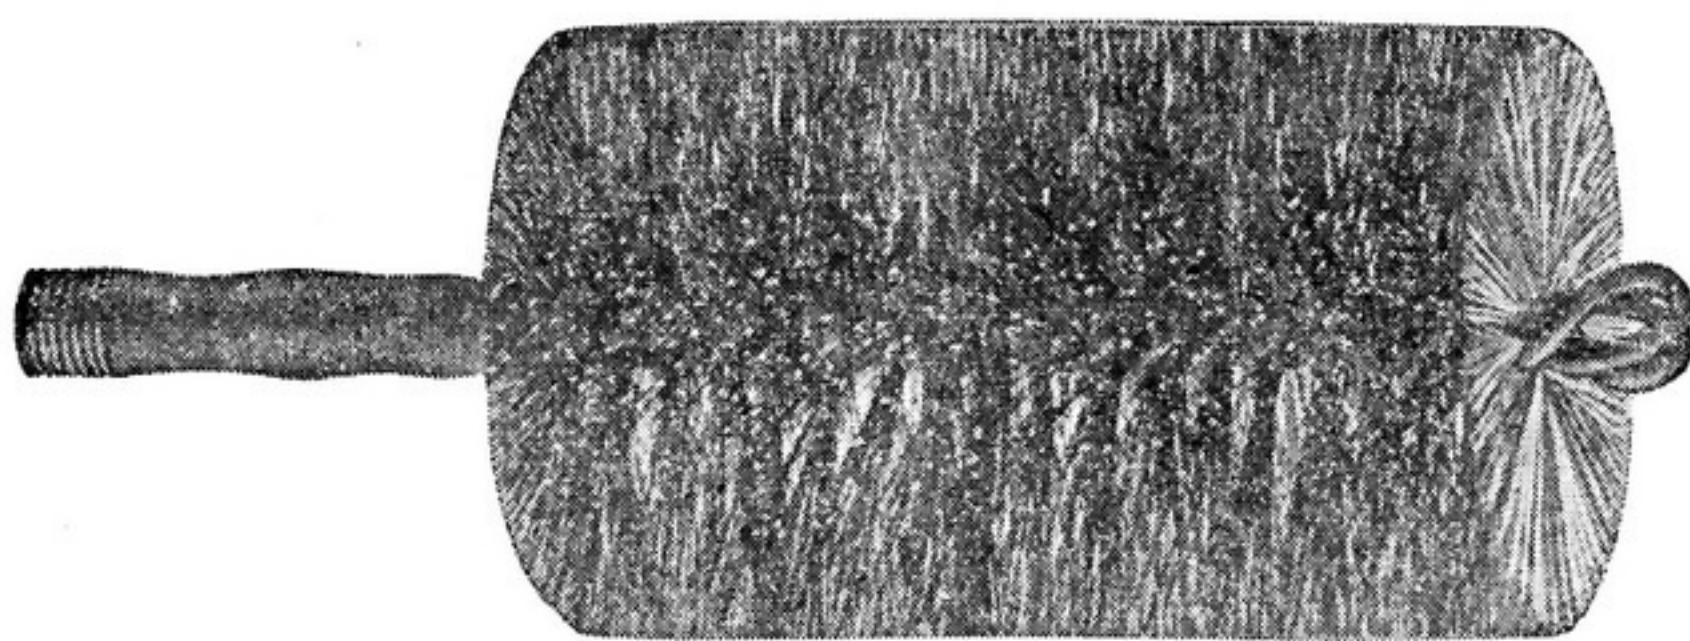

are made to cover customers' special needs and are governed by the quantities of a particular size to be ordered.

### ALL PRICES ARE F. O. B.

### IMPORTANT

ALL STANDARD MEASUREMENTS OF BOILER TUBES are taken from the outside and our brushes and scrapers are sold according to these outside diameters which are about one-fourth inch larger than the actual diameter of brush.

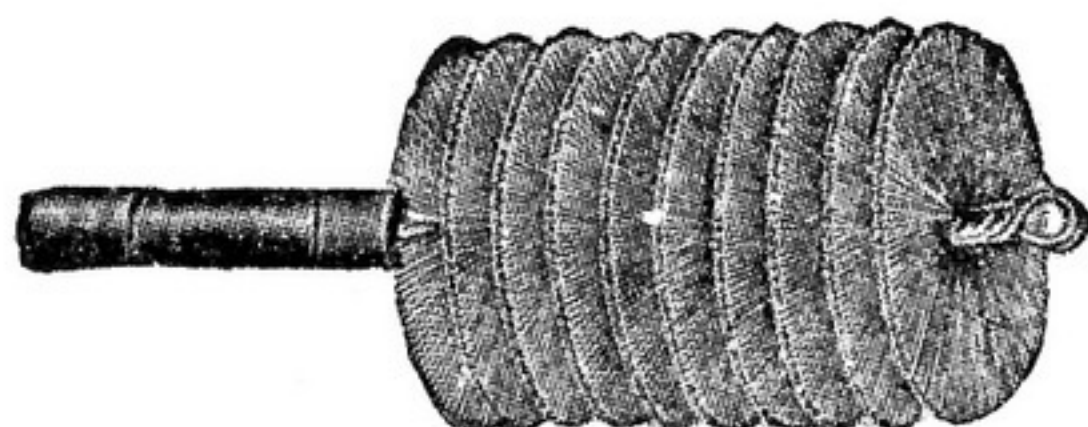

### NO. 100

### RICE PATTERN ROUND WIRE TUBE BRUSH

Manufactured from the best quality round tempered wire. Brush part is extra length and every brush carefully fitted to tube. A very excellent cleaner for removing dust and soot. Coupling supplied and assembled at extra cost. Made in tube sizes.  $\frac{1}{2}$  to 6 x  $4\frac{1}{2}$ " long brush part.

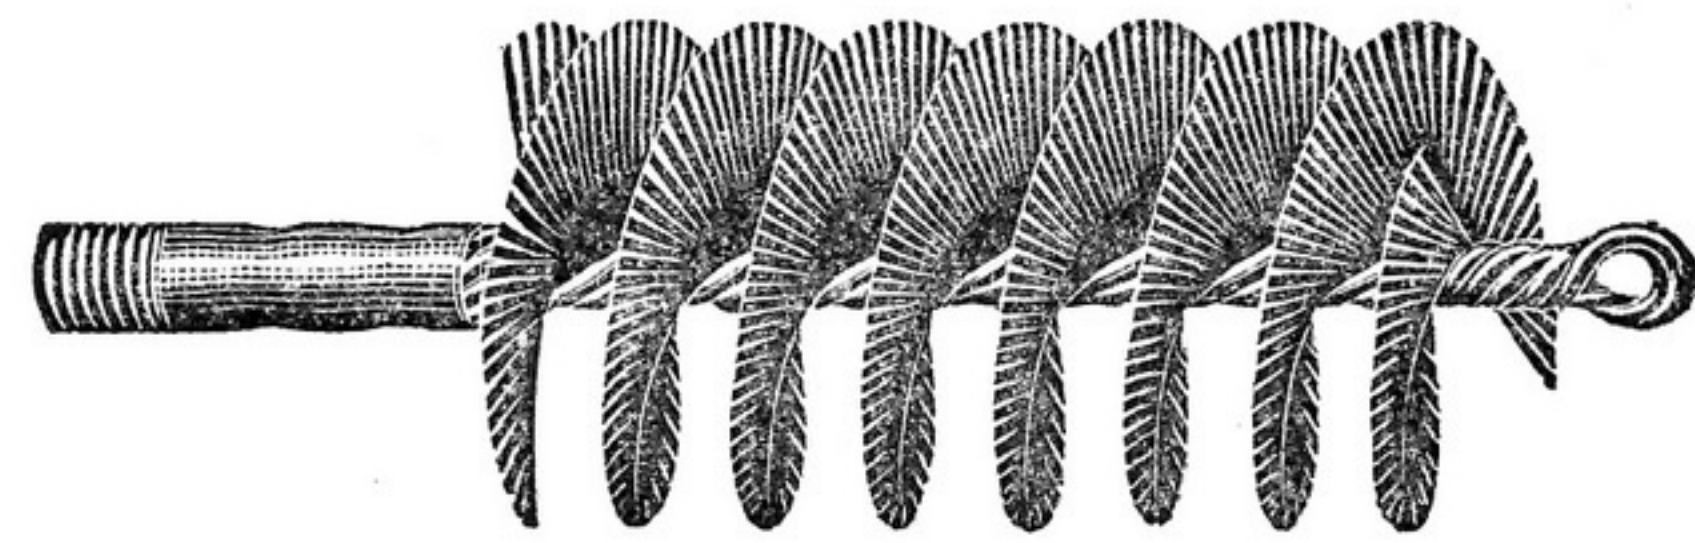

### NO. 101

### SINGLE SPIRAL ROUND WIRE TUBE BRUSH

Made the same length with the same grade of material as No. 100, but being wound single spiral. Filled heavy for tough jobs. Coupling supplied and assembled at extra cost. Made in tube sizes  $1\frac{1}{2}$  to 6" diam. by  $4\frac{1}{2}$ " long.

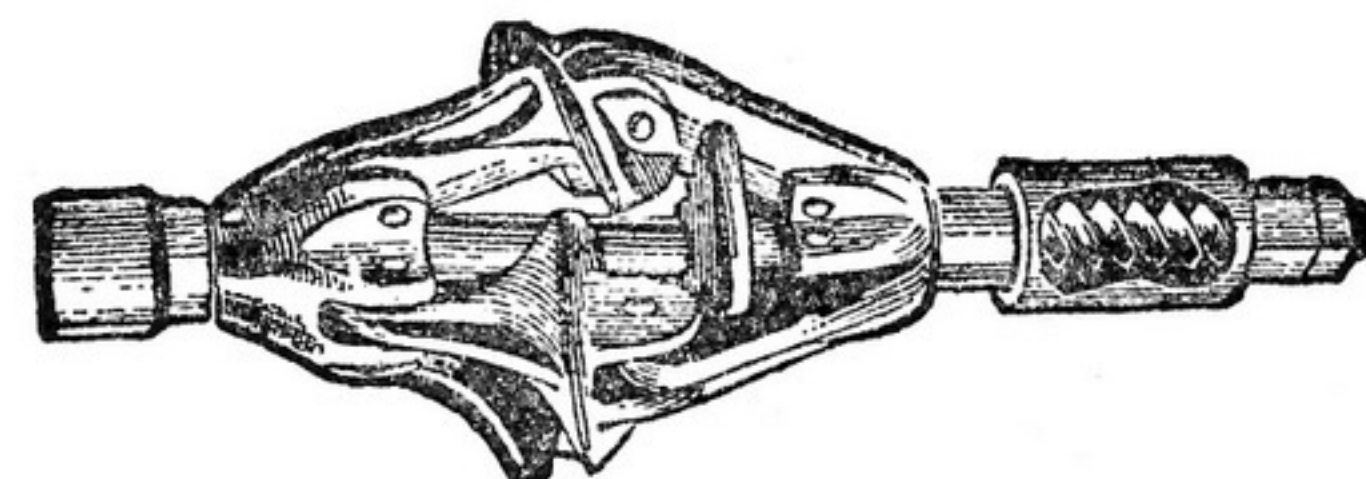

### NO. 102

### HARD SPIRAL TUBE CLEANER

Made of heavy flat tempered steel wire thoroughly twisted so that it will not unwind when properly used. A very hard scraping, substantial brush. Coupling supplied and assembled at extra cost. Made in tube sizes  $\frac{3}{4}$  to 6" diam. x  $4\frac{1}{2}$ " long.

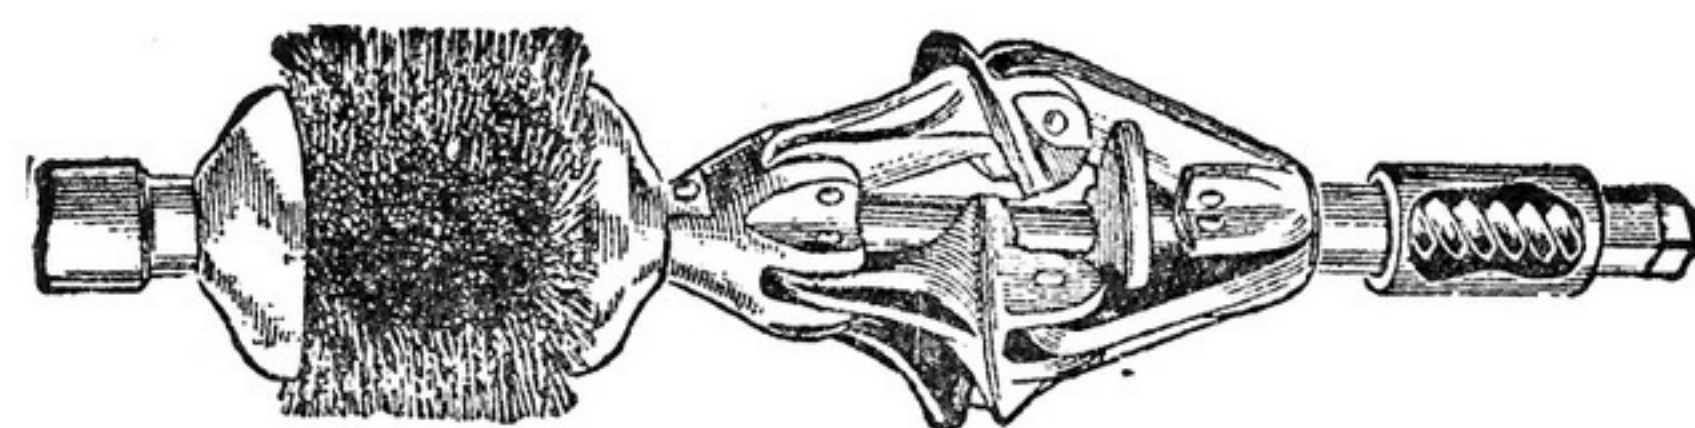

### NO. 104

### IMPROVED INGALLS BOILER TUBE CLEANER

Adjusts itself to conform to the inside of the tube. Full size spindle with flange strengthening the working parts. Springs being tempered after winding, never sets or wears out. Made in all tube sizes 2" to 5".

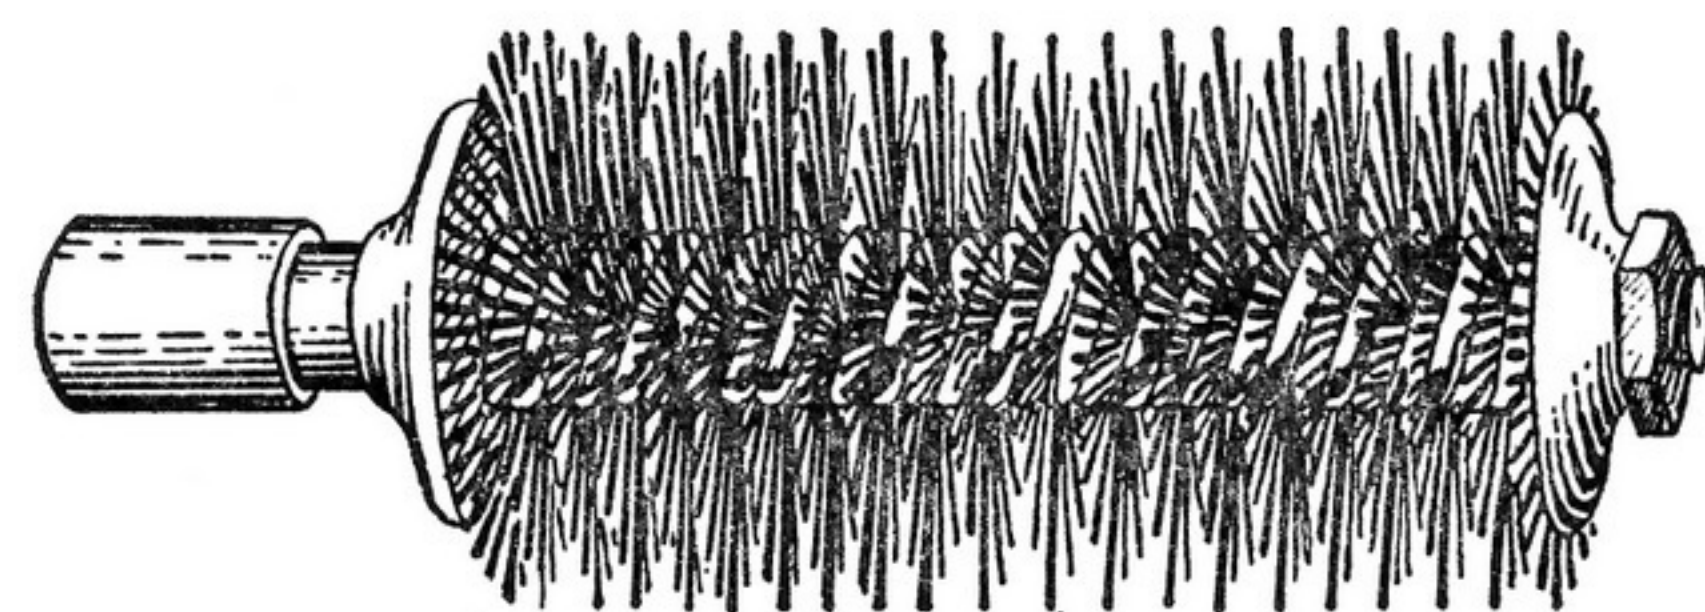

### NO. 105

### IMPROVED INGALLS WITH WIRE BRUSH

Same as No. 104 except that it has a wire brush which follows the scraper and takes the fine dust and scale which has been loosened by the scraper. 2" to 5" diam.

### NO. 106

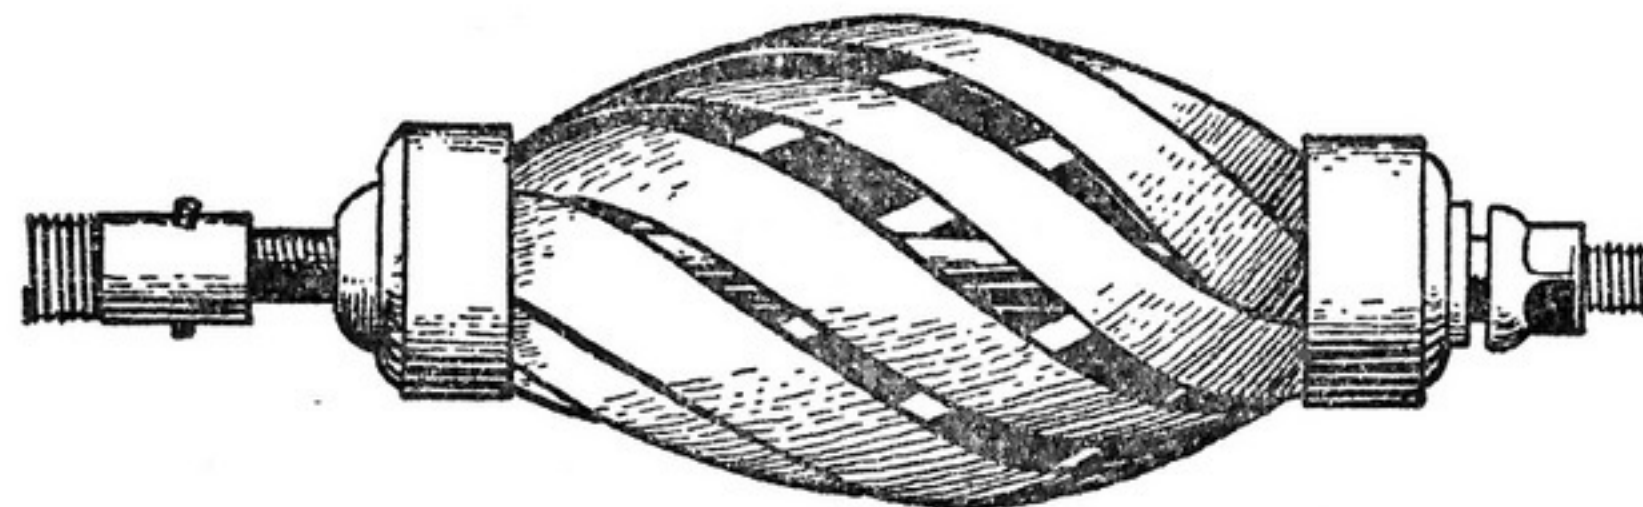

### ABRAM'S FLUE BRUSH

Made of flat spring wire securely fastened to central spindle so they cannot come out. Strong and serviceable. Made in sizes 2" to 8" diam.

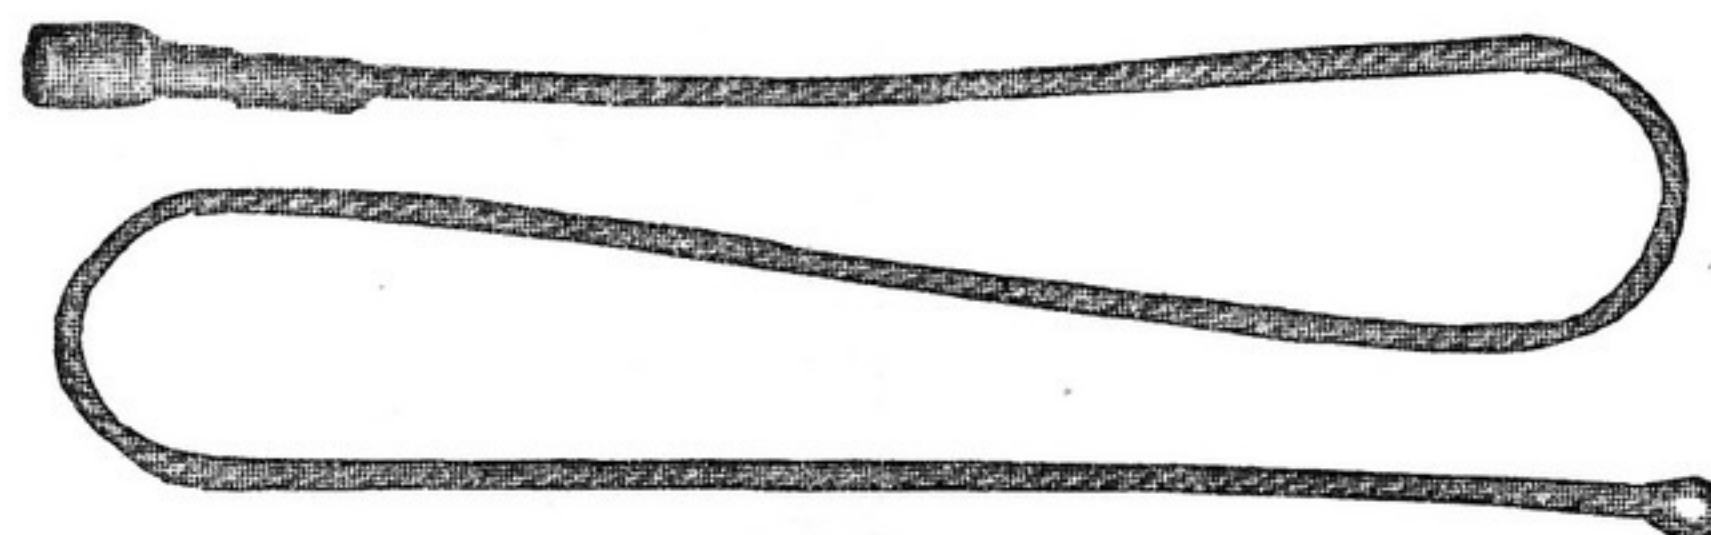

FROM  
YOUNG & SWARTZ, INC.  
Brush Manufacturers  
39 Cherry St. Buffalo 4, N. Y.

NO. 107

**ELLIPTIC TUBE CLEANER**

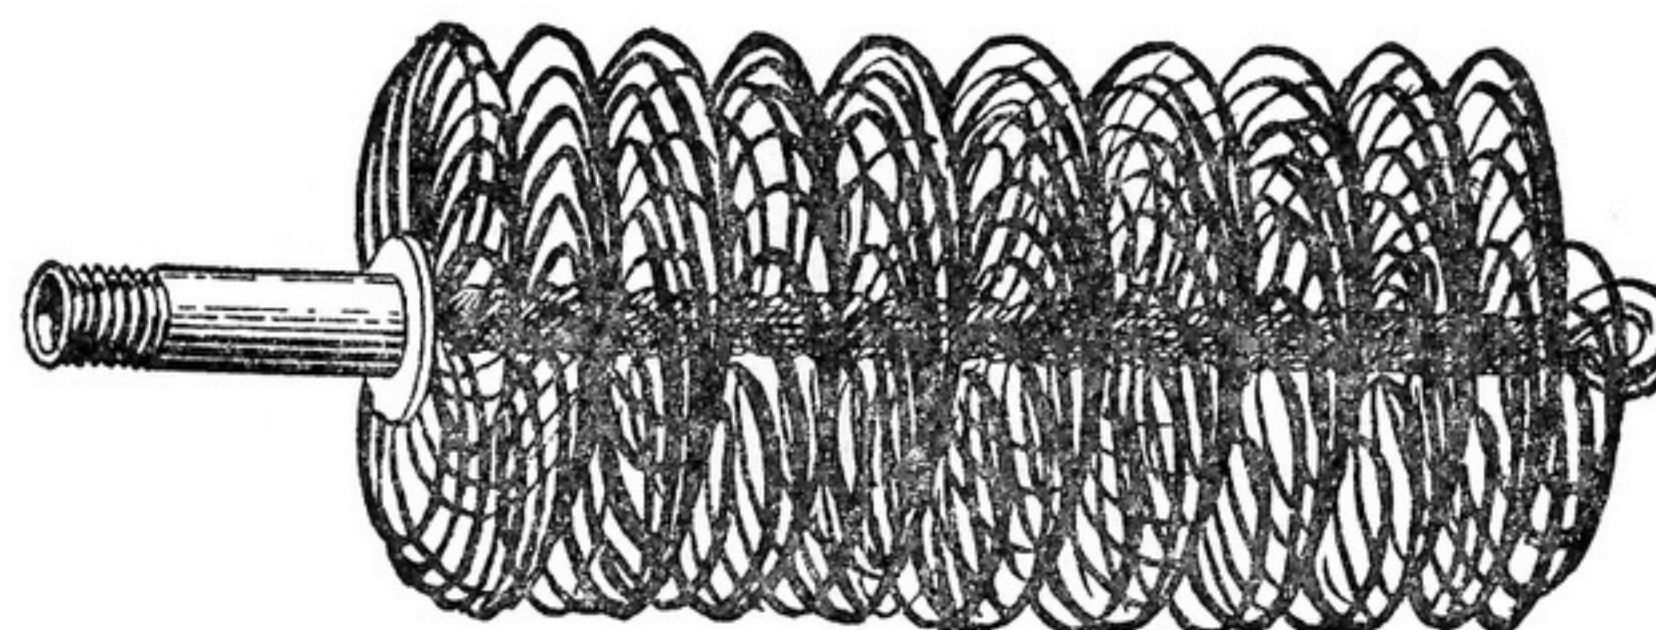

This is a well-known Scraper, made of the best steel and excellent for very dirty tubes. Sizes 1 to 4 inches, inclusive.

**FLEXIBLE WIRE HANDLE**

Made up to 66" to fit any brush having  $\frac{1}{4}$ " nipple. For use in passing brushes around corners or circular spaces.

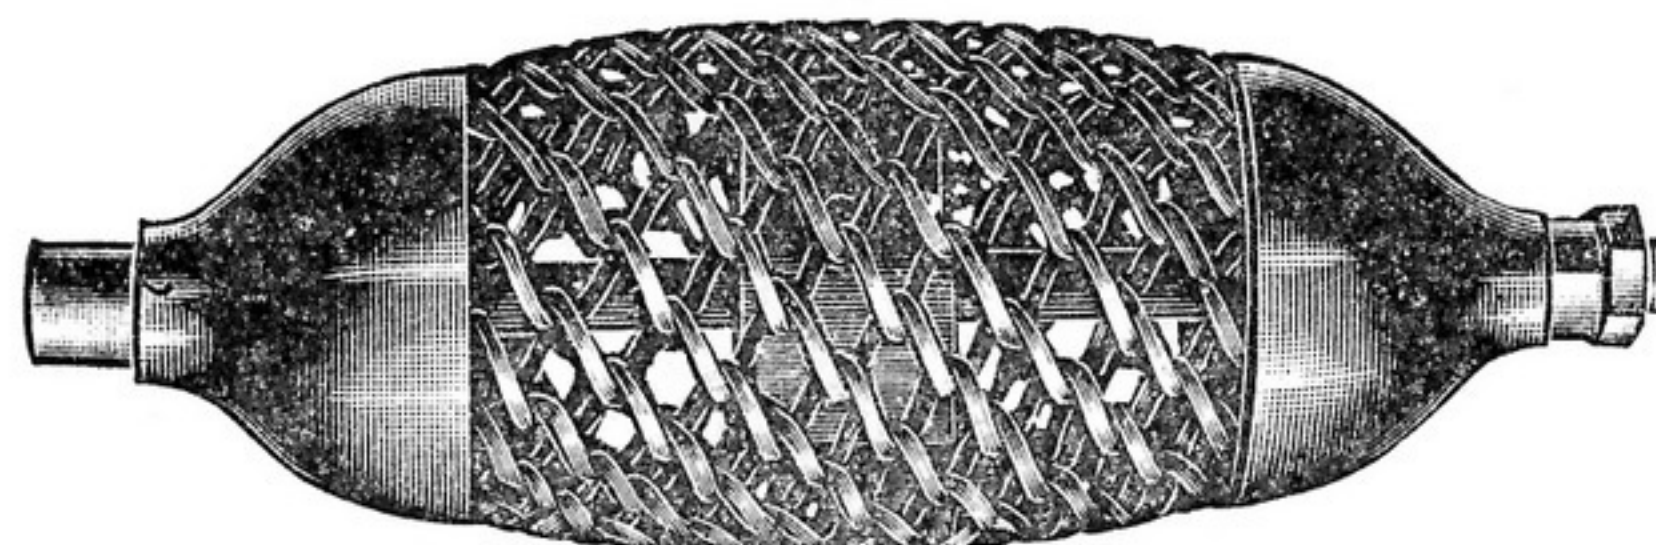

NO. 108

**COIL BRUSH SCRAPER**

Made from specially tempered flat steel wire, combining strength, elasticity and durability. Readily conforms to warped tubes. Made in all tube sizes  $1\frac{1}{2}$  to 4".

NO. 109

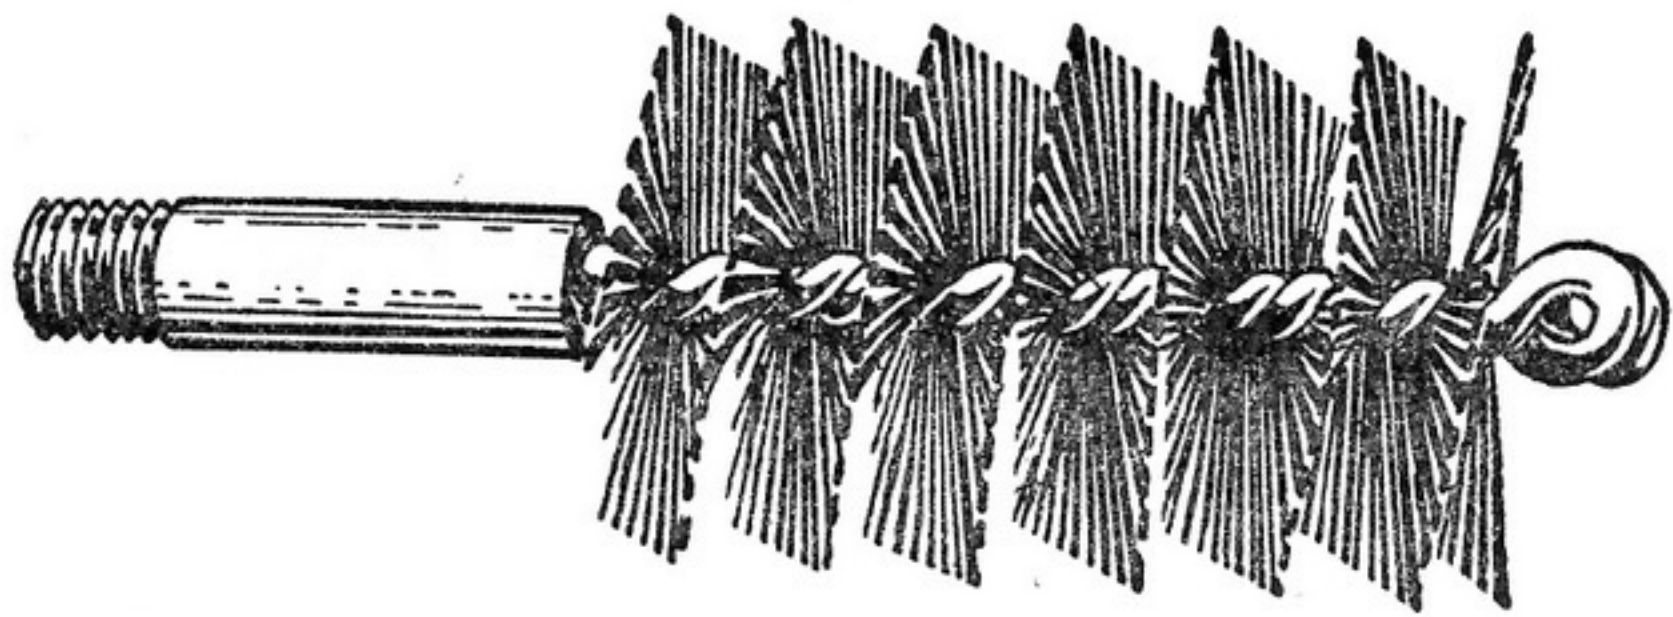

**CRISS-CROSS BOILER TUBE CLEANER**

A very effective Cleaner which has sharp cutting edges, conforming to the walls of the tube. Cuts and removes scale and soot. Made in sizes  $1\frac{1}{4}$  to 6".

NO. 120

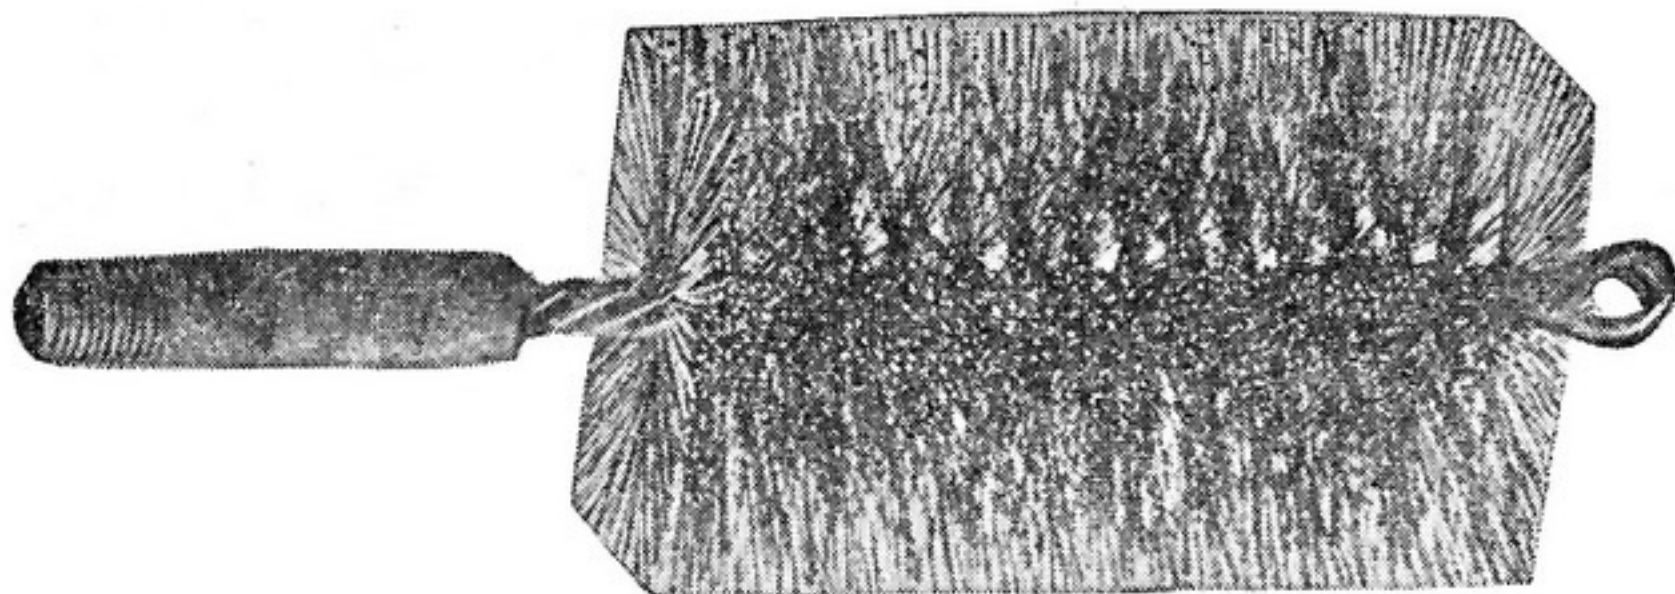

### OVAL STEEL WIRE HEATER BRUSH

A very hard scraping brush made from flat tempered wire with two flat sides. Adapted for Ideal Boilers and others having flat sections. Coupling supplied and assembled at extra cost.

1  $\frac{3}{8}$  x 3  $\frac{1}{4}$  x 4  $\frac{1}{2}$ "      3  $\frac{1}{2}$  x 5 x 4  $\frac{1}{2}$ "  
2  $\frac{3}{4}$  x 4  $\frac{1}{2}$  x 4  $\frac{1}{2}$ "      2 x 3  $\frac{3}{4}$  x 4  $\frac{1}{2}$ "  
Other sizes made to order.

NO. 121

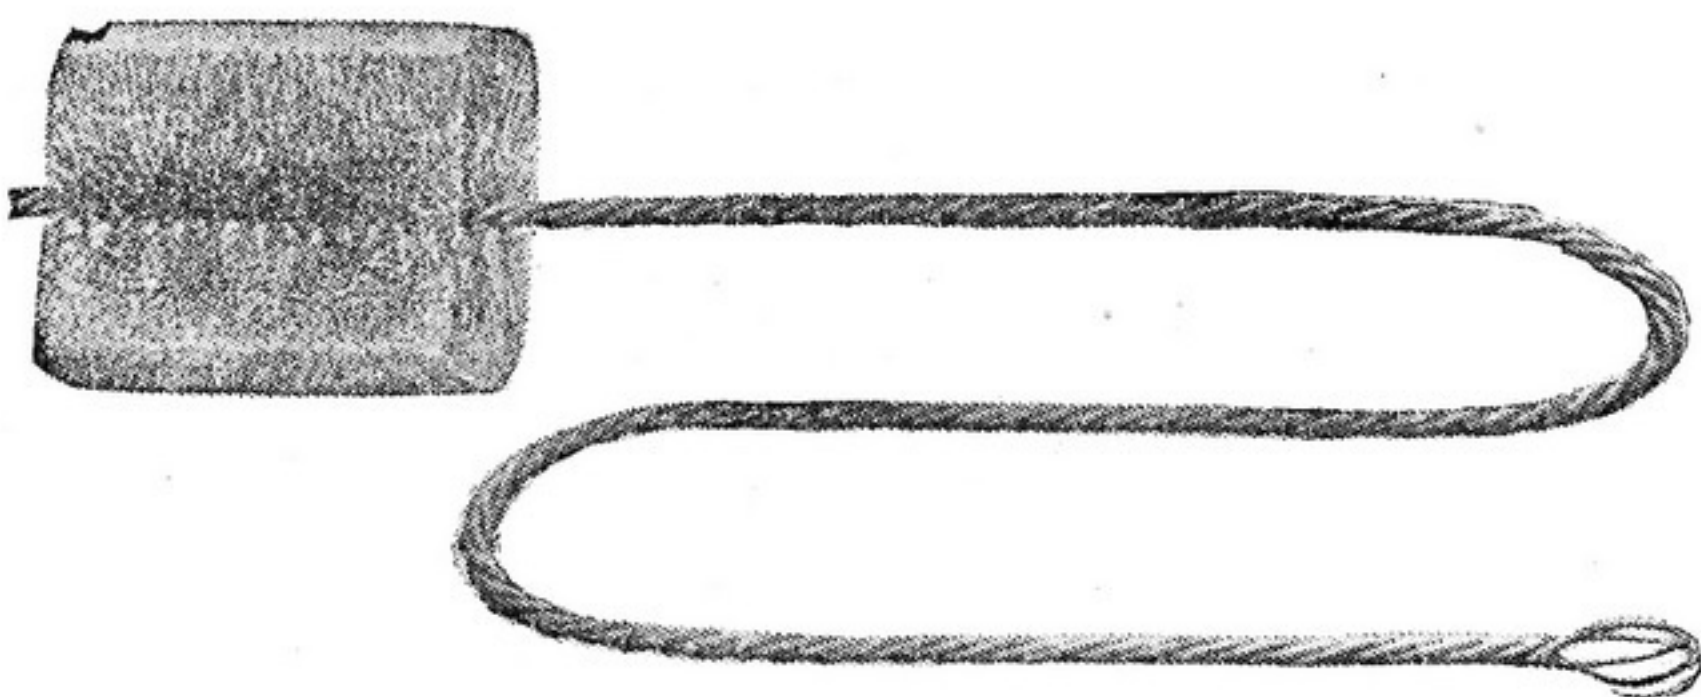

### OVAL HEATER BRUSH

This is a popular number. Made flat 2 sides. Coupling supplied and assembled at extra cost. Heavy duty single spiral brushes made in this style. Please specify.

Best Selling Sizes:  
1  $\frac{3}{4}$  x 4 x 4  $\frac{1}{2}$ " long      2 x 4 x 4  $\frac{1}{2}$ " long  
2  $\frac{1}{2}$  x 4 x 4  $\frac{1}{2}$ " long      3 x 5 x 4  $\frac{1}{2}$ " long  
Other sizes made to order.

NO. 123

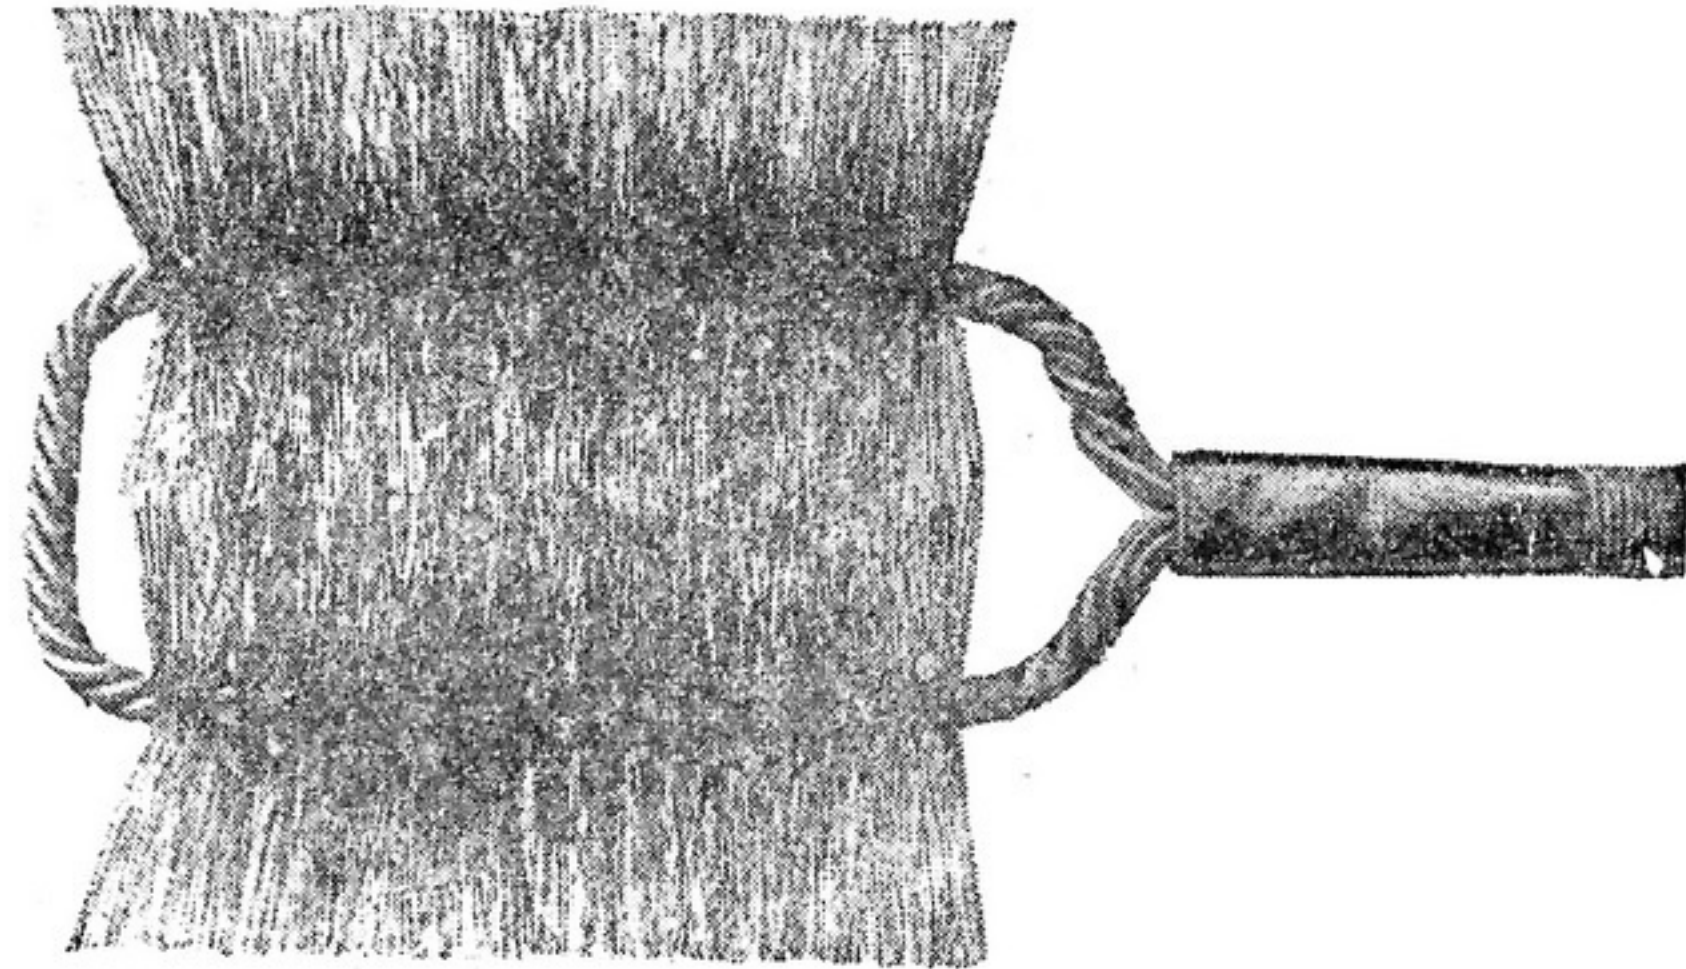

### FLEXIBLE HANDLE HEATER BRUSH

This brush is designed for use in house furnace, steam and hot water boilers which require a cheap handle or which have circular flues or sharp corners. Just the thing for hot air furnaces. Handle can be made any length up to 60" in length.

Best Selling Sizes:  
3" diameter round by 4  $\frac{1}{2}$ " long  
4" diameter round by 4  $\frac{1}{2}$ " long  
1  $\frac{3}{4}$  x 4 x 4" long, flat 2 sides  
2 x 4 x 4  $\frac{1}{2}$ " long, flat 2 sides  
2  $\frac{1}{2}$  x 4 x 4  $\frac{1}{2}$ " long, flat 2 sides  
Other sizes made to order.

NO. 124

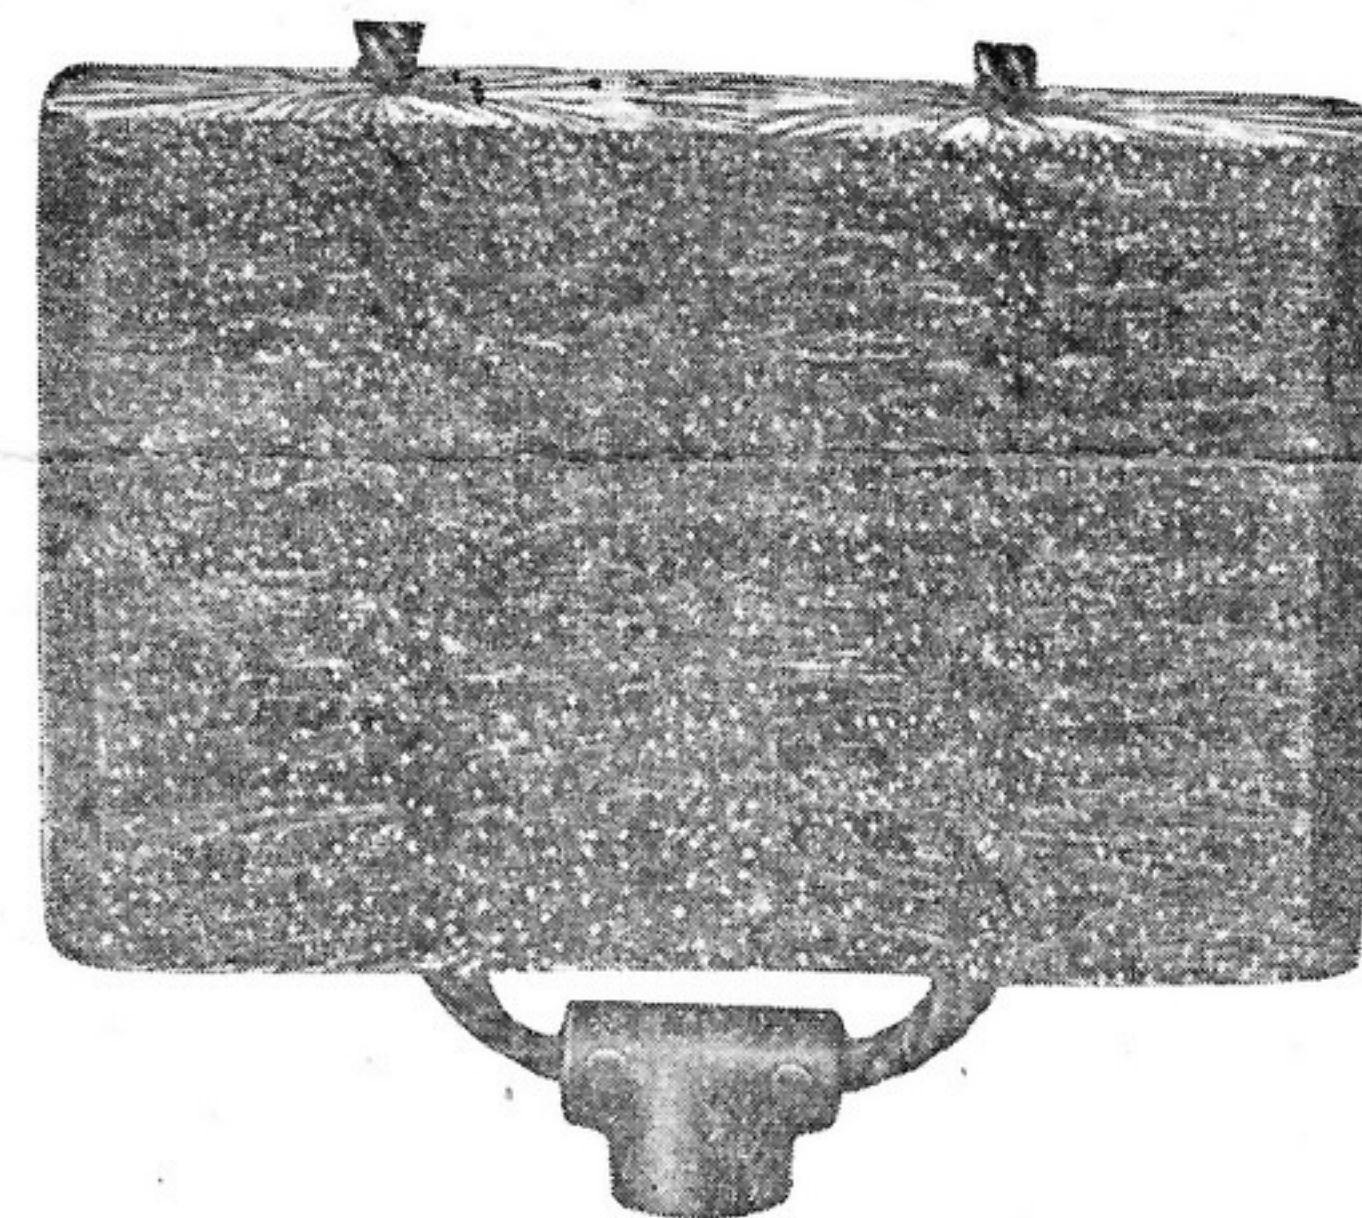

### DOUBLE MERCER HEATER BRUSH

Single or double spiral. This brush naturally costs a little more than the single brush but it is worth it and will give longer and better service. Fits most boilers having flat or oval flues.

Best Selling Sizes:  
1  $\frac{5}{8}$  x 4 x 4" long  
1  $\frac{3}{4}$  x 4 x 4" long  
2  $\frac{1}{2}$  x 6 x 4  $\frac{1}{2}$ " long  
3  $\frac{1}{4}$  x 7 x 4  $\frac{1}{2}$ " long  
Flat 2 sides, double spiral only. Coupling supplied and assembled at extra cost. Heavy duty brushes made in this style  $\frac{3}{8}$ " nipple. Please specify.  
Other sizes made to order.

NO. 125

### DUPLEX DOUBLE HEATER BRUSH

Principally used in Walker and Crawford boilers.

Best Selling Sizes:  
2  $\frac{1}{4}$  x 5  $\frac{1}{2}$  x 4" long      2  $\frac{1}{2}$  x 6 x 4" long

NO. 126

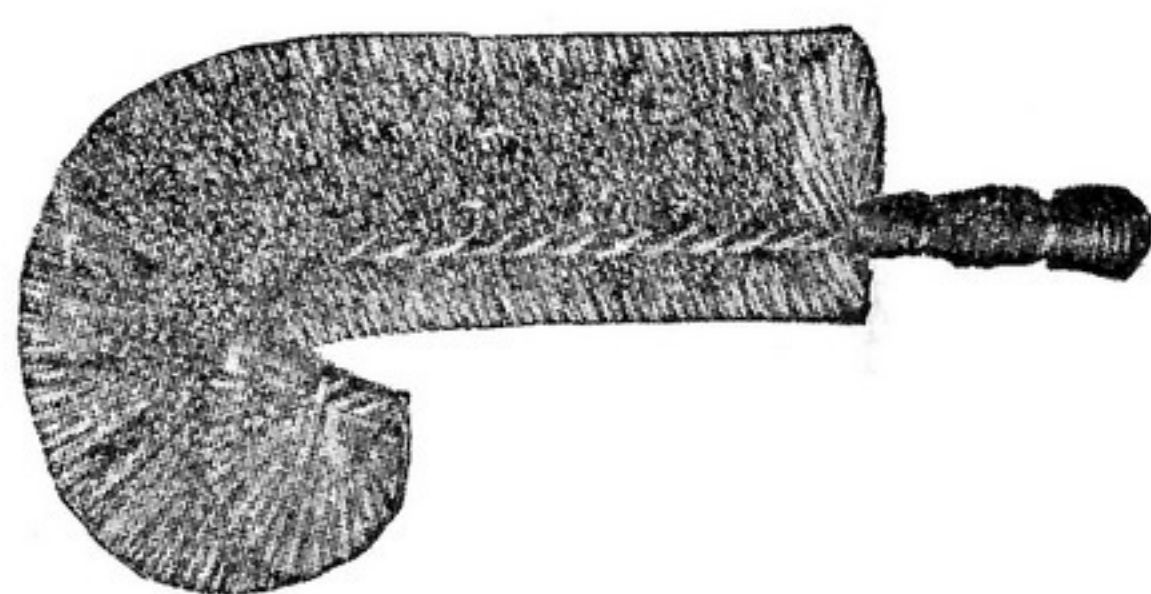

### DOUBLE SERVICE HEATER BRUSH

Brushes on end as well as sides, which is an advantage on some boilers. Flat 2 sides on 1  $\frac{1}{2}$ , 1  $\frac{3}{4}$  and 2" only. Coupling supplied and assembled at extra cost. Heavy duty brush made in this style  $\frac{3}{8}$ " nipple.

Please specify.  
Best Selling Sizes:  
1  $\frac{1}{2}$  x 4 x 6" long      1  $\frac{3}{4}$  x 4 x 6" long  
2 x 4 x 6" long      2  $\frac{1}{4}$  x 4 x 6" long  
2  $\frac{1}{2}$  x 4  $\frac{1}{2}$  x 6" long  
Other sizes made to order.

NO. 128

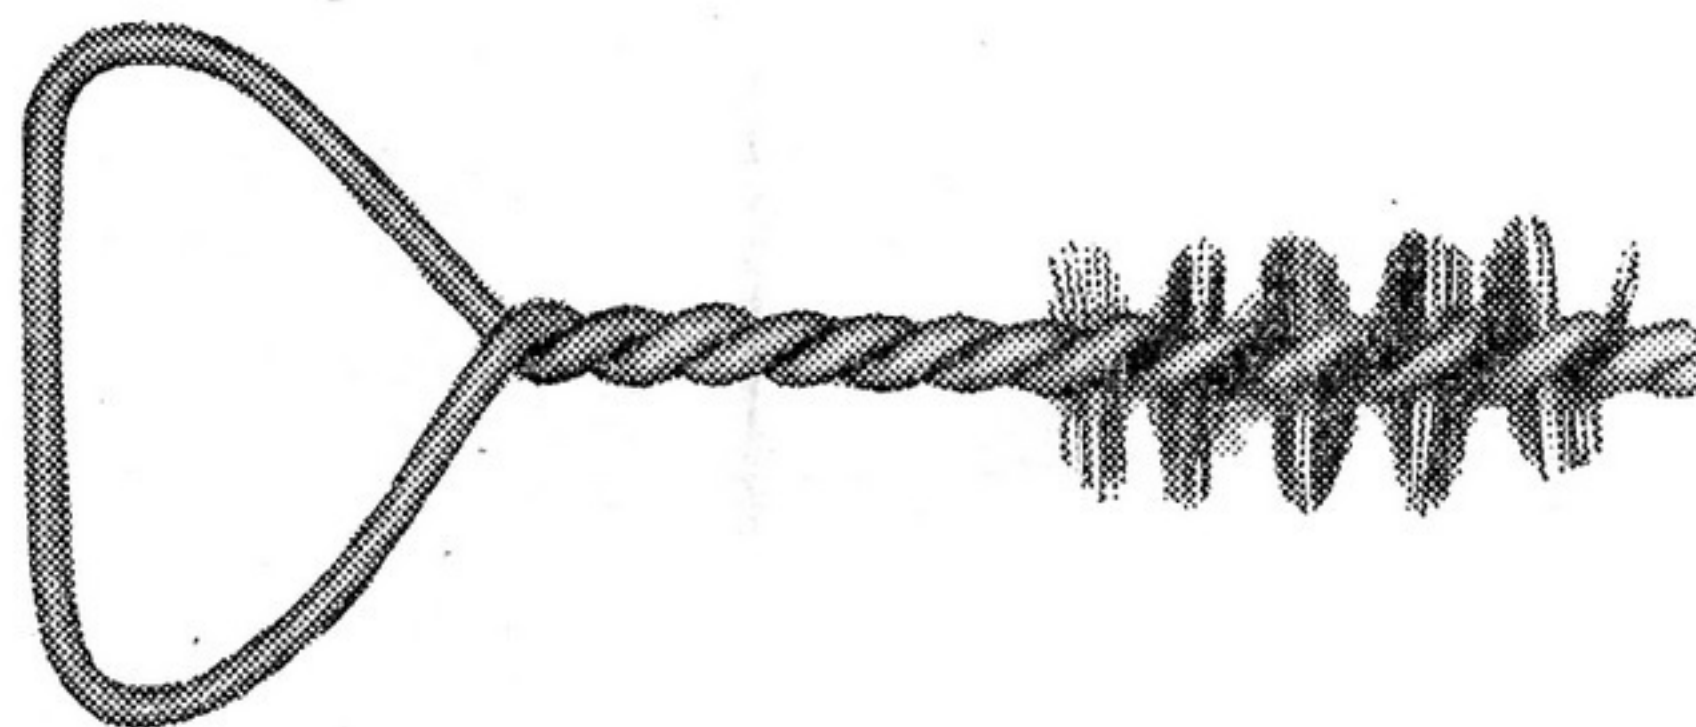

### CURVED END HEATER BRUSH

Made for brushing on end as well as side. Coupling supplied and assembled at extra cost.

Best Selling Sizes:  
1 3/4, 2 1/2 and 4" diam.  
Other sizes made to order.

NO. 133

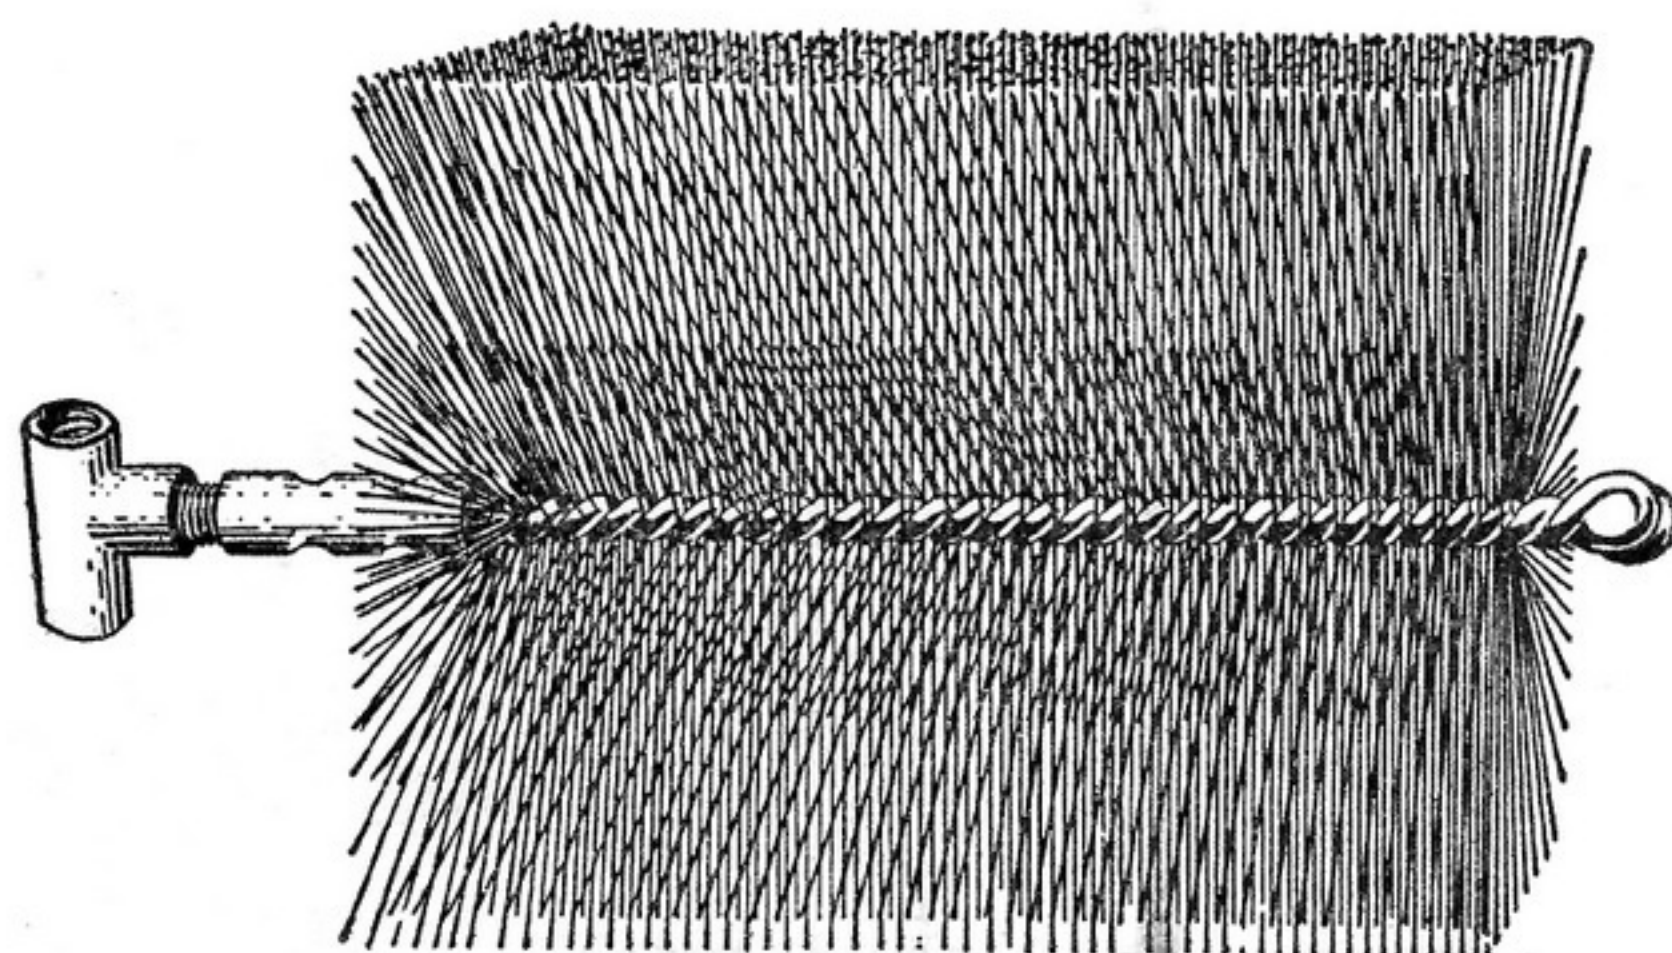

### COPPER PIPE FITTING BRUSH

Galvanized wire handle, with stainless steel wire brush part.

Sizes for 3/8, 1/2, 3/4 and 1".

NO. 131

### CHIMNEY BRUSH

Made so that a weight may be attached to one end and a rope to the other for cleaning from the top of the chimney.

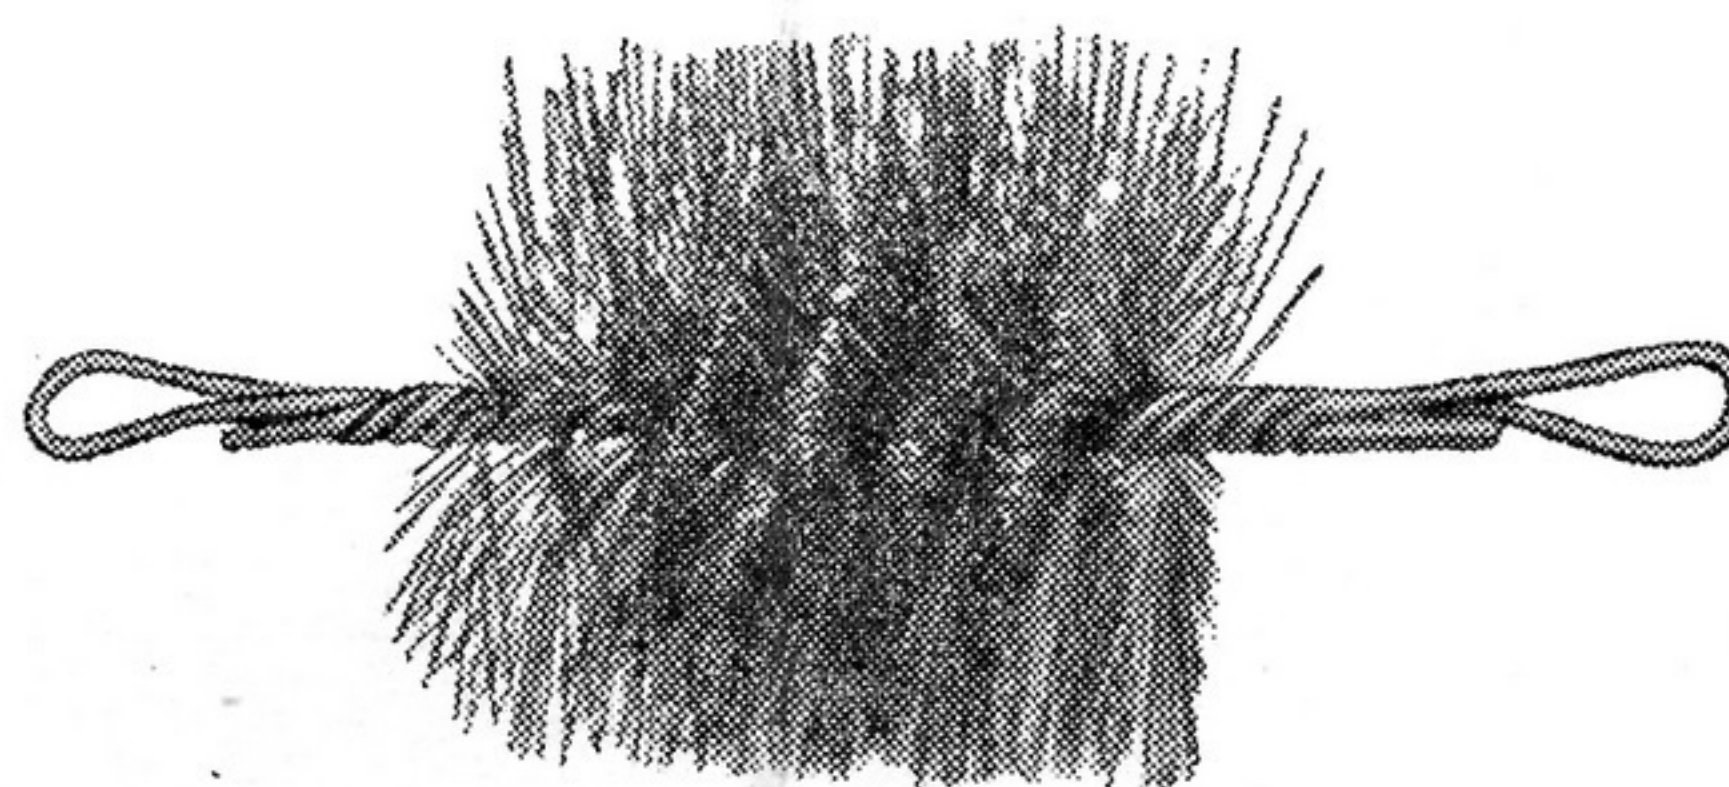

Regularly made 8" long brush part, and either round or square. Made from either round or flat wire.

Can also be furnished with wire handles for cleaning through the flue holes in chimney.

7 x 8 x 8"      6 x 7 x 8"      5 x 7 x 8"

Other sizes made to order.

NO. 134

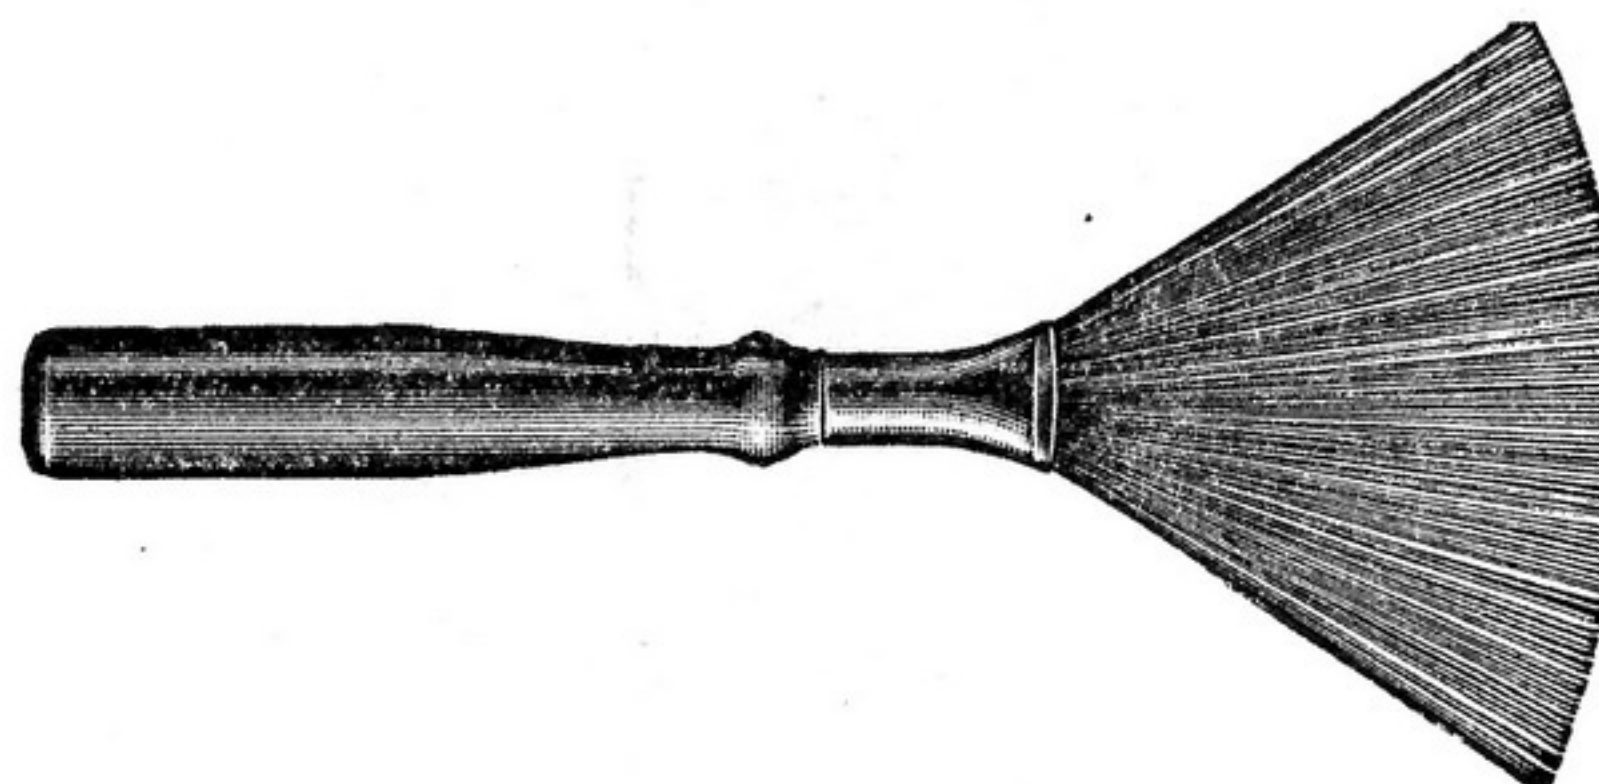

For Circular Hot Air Furnaces.

Size 1 3/8 x 3 x 3" long and 1 7/8 x 3 x 3" long.

Two 85" wire handles with each brush.

NO. 200

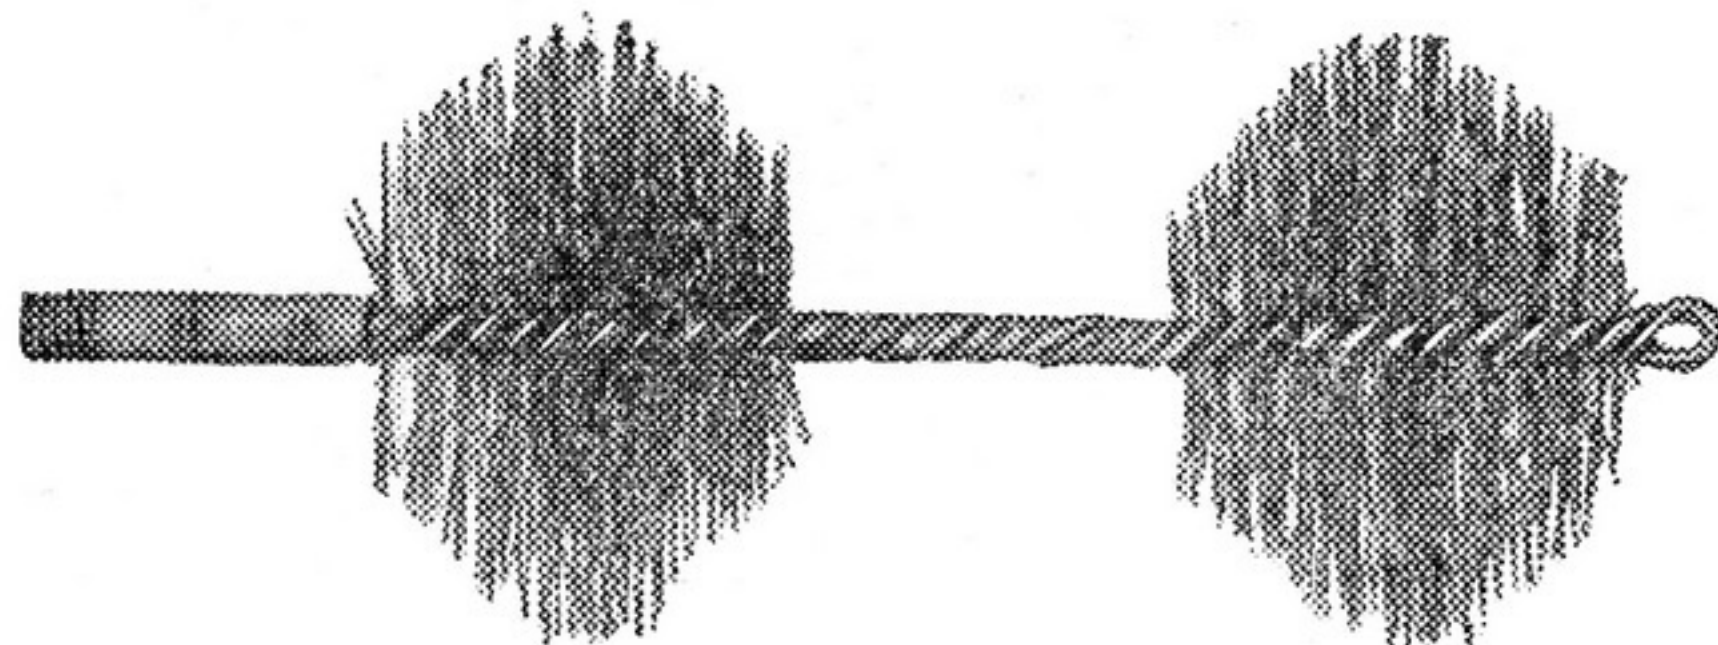

### SANITARY WIRE SINK BRUSH

A very efficient brush for cleaning sinks, kettles pans, and for many industrial uses. Wood handles in red and green. First quality cadmium plated wire securely fastened in ferrule. Packed one dozen in a carton. One to five gross in a case.

No. 200, length over all 8", Wire 3" long.

NO. 132

### SPOOL BRUSH

Spool Brush for H. B. Smith No. 24 and 60 boilers. Coupling supplied and assembled at extra cost.

128 BUFFALO OF TO-DAY THE QUEEN CITY OF THE LAKES.

**B. J. YOUNG & BROTHER.**

An old established and noteworthy manufactory, whose products are widely known and held in high favor by the trade, and whose operations have for many years contributed to the trade and commerce of Buffalo, is that of Messrs. B. J. Young & Brother, manufacturers of brushes, bass brooms, machine brushes, etc., located at 39 Cherry street, corner of Spruce. This business was founded in 1866 by Mr. Frank Young, who at his death, which occurred in 1892, was succeeded by his sons, the present proprietors, Messrs. Bernhard J. and Ernst P. Young. These gentlemen have been trained in the business from their youth up. Their premises comprise an entire three-story brick building, 25x65 feet in dimensions, the property of the estate of the late Frank Young. The salesroom is neatly fitted up, while the factory is thoroughly equipped with all the latest appliances known to the industry. Eighteen skilled workmen are employed, and 120 dozen hand-made brushes are daily turned out, the productions including clothes, blacking, dust, hat, paint, machine and other brushes, also bass brooms etc. The trade extends throughout New York and Pennsylvania, and orders are promptly and satisfactorily filled. The partners are natives of Buffalo, and are held in high esteem for their sound business principles and strict integrity.

## EDITOR'S NOTES APRIL 2022

B.D. Szafranski  
Elma NY USA

A new cover was created to replace  
the original blank binder.

An Historical Addendum  
has been added  
to better authenticate  
the 1866 founding year.

Frank Young was listed  
in the 1868 Buffalo  
City Directory, which  
was published  
in late 1867.

Valentine Jung (later Young)  
goes back to 1852 as seen  
in the 1853 Buffalo  
City Directory as  
a brush maker.

Congratulations on over 150  
years of manufacturing  
high quality brushes,  
brooms & related products!

Please do not reprint this  
document for profit.
